Subject: Draft AOC and Action Memo for OU2

Jessica – I am pleased to be able to send you, for review and comment, a draft AOC and a draft action memo for Denver's proposed work within OU2 of the VBI70 site.

The draft AOC has automatic paragraph numbering and cross referencing within the document. In order to keep these features working properly, the document should be saved as a Word 97-2003 Document with a .doc ending, otherwise the automatic features act up.

Within the model AOC, EPA has dropped the requirement for financial assurance and you will see there are a number of provisions where we will fill in blanks or provide more detail through our discussions and negotiations. After you and your folks have a chance to review these drafts, let's talk and figure out the best means to move these documents forward to agreement.
